Cleo Pyramid Wristlett

Work that old-school goddess-style glamour with this super-chic and amazingly useful pyramid-shaped wristlet, designed for firm fabrics like real or faux suede or leather, denim, canvas or even home dec fabrics. Lined Pyramid-shaped bag features inner pockets and a narrow self-fabric wrist strap. Wristlet closes with a cool exposed zipper.

This gorgeous piece adds a really cool vibe to any outfit and it's the perfect evening or special-occasion clutch...because it's such a total show-stopper, you can also try it anywhere you just need to carry the basics-the pool, the beach, the movies, lunch dates, drinks, or just out and about.

It's *j-u-s-t* roomy enough for all your daily essentials, so let's see...lipstick? check! phone? check! keys. credit card, cab fare? check and double check, you're ready to rock & roll!

SEAM ALLOWANCES & OTHER INFO

Seam allowances are 5/8" or 1.5cm wide.
All seams are sewn right sides
together unless otherwise stated.

Skills needed include: attaching a pocket;
inserting a zipper; making & inserting a strap.

ABOUT THIS STYLE

This wristlet is a simple pyramid shape, with an
optional interior pocket. It is suitable for all manner
of fabrics, but make sure you use a supple interfacing.

Don't bother making a muslin for this (as if you would!)
but we do recommend that you pin the pattern together
before you start cutting your fabric, just to see how it
goes together.

FABRIC & NOTIONS REQUIRED

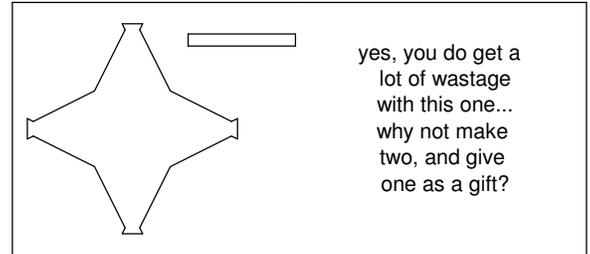

You'll need around 3/4 yard/ 69 cm each of 60"/150cm
wide fabric, lining & interfacing.

To complete the bag, you'll need a 7" or 18cm zipper;
a 7" or 18cm square of tapestry canvas or similar
is optional for stiffening the bottom of the wristlet.

You'll also find a glue-stick very, very useful.

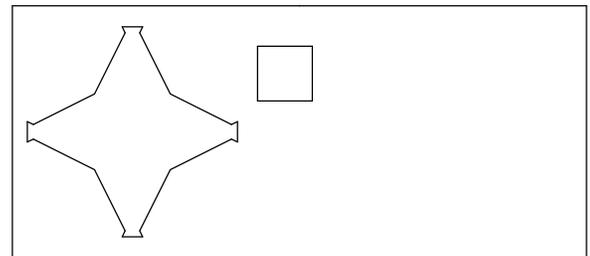

SUGGESTED FABRIC CUTTING LAYOUT

lay the fabric open for this layout.

SUGGESTED LINING CUTTING LAYOUT

lay the lining open for this layout.

3a Prepare the lining cell phone pocket...turn the
top edge of this pocket under 5/8" and stitch this
hem down, then press the remaining 3 edges under 5/8".

1 Interface all the fabric pieces of your wristlet.

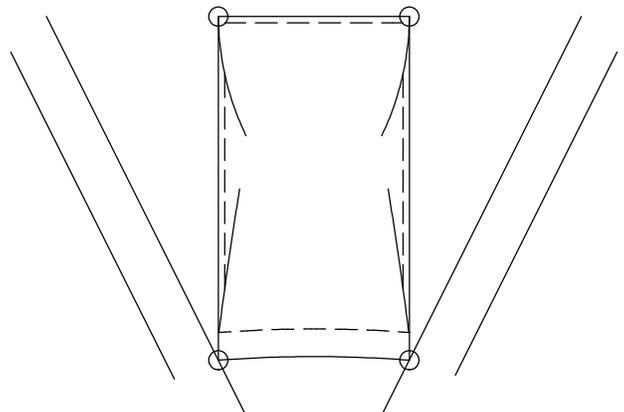

2 Prepare the wrist strap: finish one long edge with
overlocking if you wish, then fold the strap into
thirds along the foldlines as marked on the pattern.

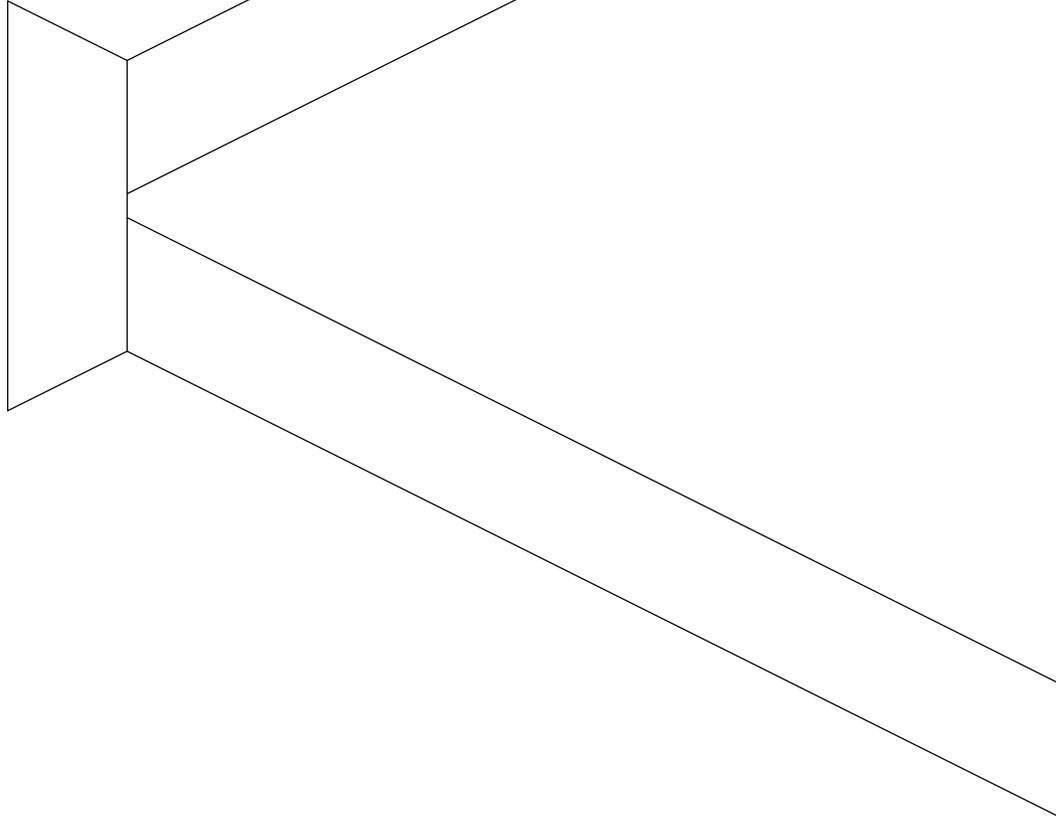

Topstitch along both edges, then fold in half
and baste the ends together.

3b Following the notches on the pocket, pleat the bottom edge
of the pocket, then stitch the bottom and side edges of
the pocket-onto the lining, following the stitchlines
indicated on the pattern...the pocket will be
upside-down, and it should look like this:

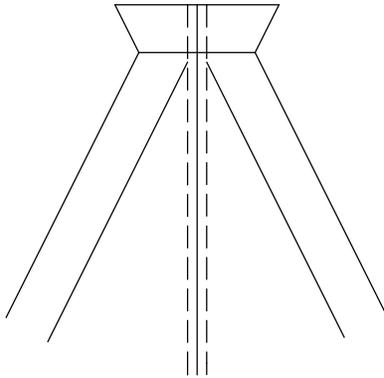

3

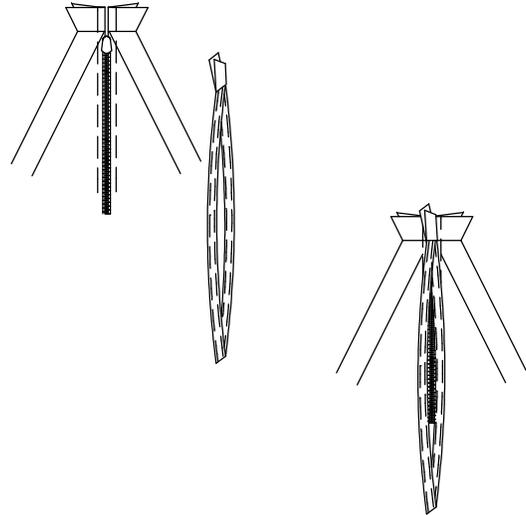

instructions page 2 of 2

- 4a** Right sides together, stitch the lining to the bag fabric along the zipper opening stitchlines...they're marked on the pattern with dashed lines; you'll use teeny-tiny seam allowances for this!

Slit this opening down the center, then clip the seams at the bottom corners, press the seams open and turn the lining inside the bag piece. Press flat.

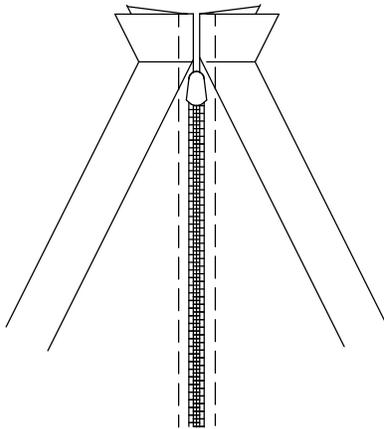

- 5b** Baste the strap to the top edges of the zipper opening, so it looks like this:

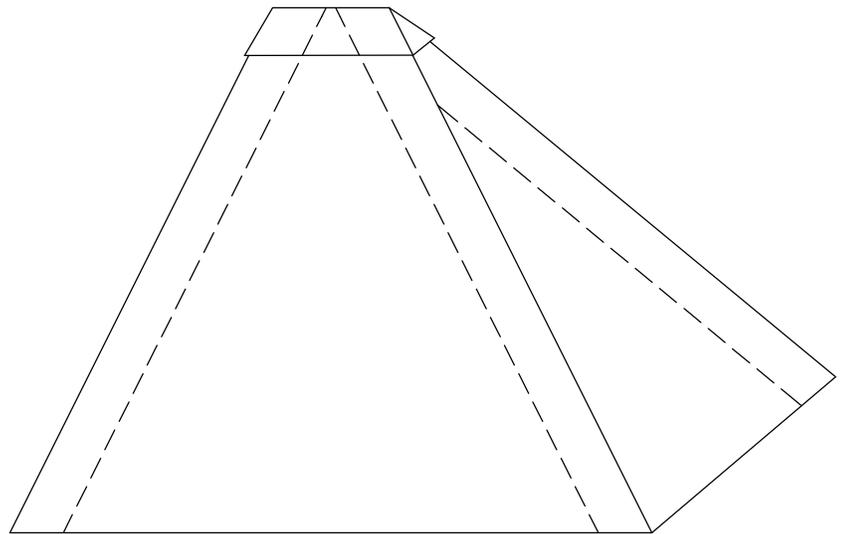

- 4b** Center the zipper behind the zipper opening slit... you may find it easier to use a few tiny dabs of glue to just hold the zipper in place.

Topstitch the zipper into place.

- 6a** Join the sides of the pyramid, making sure that you pivot your needle at the top of the pyramid, then clip the seams, press open & turn the pyramid out to the right side...unless you have houdini-like powers, you'll probably need to undo the zipper to do this!

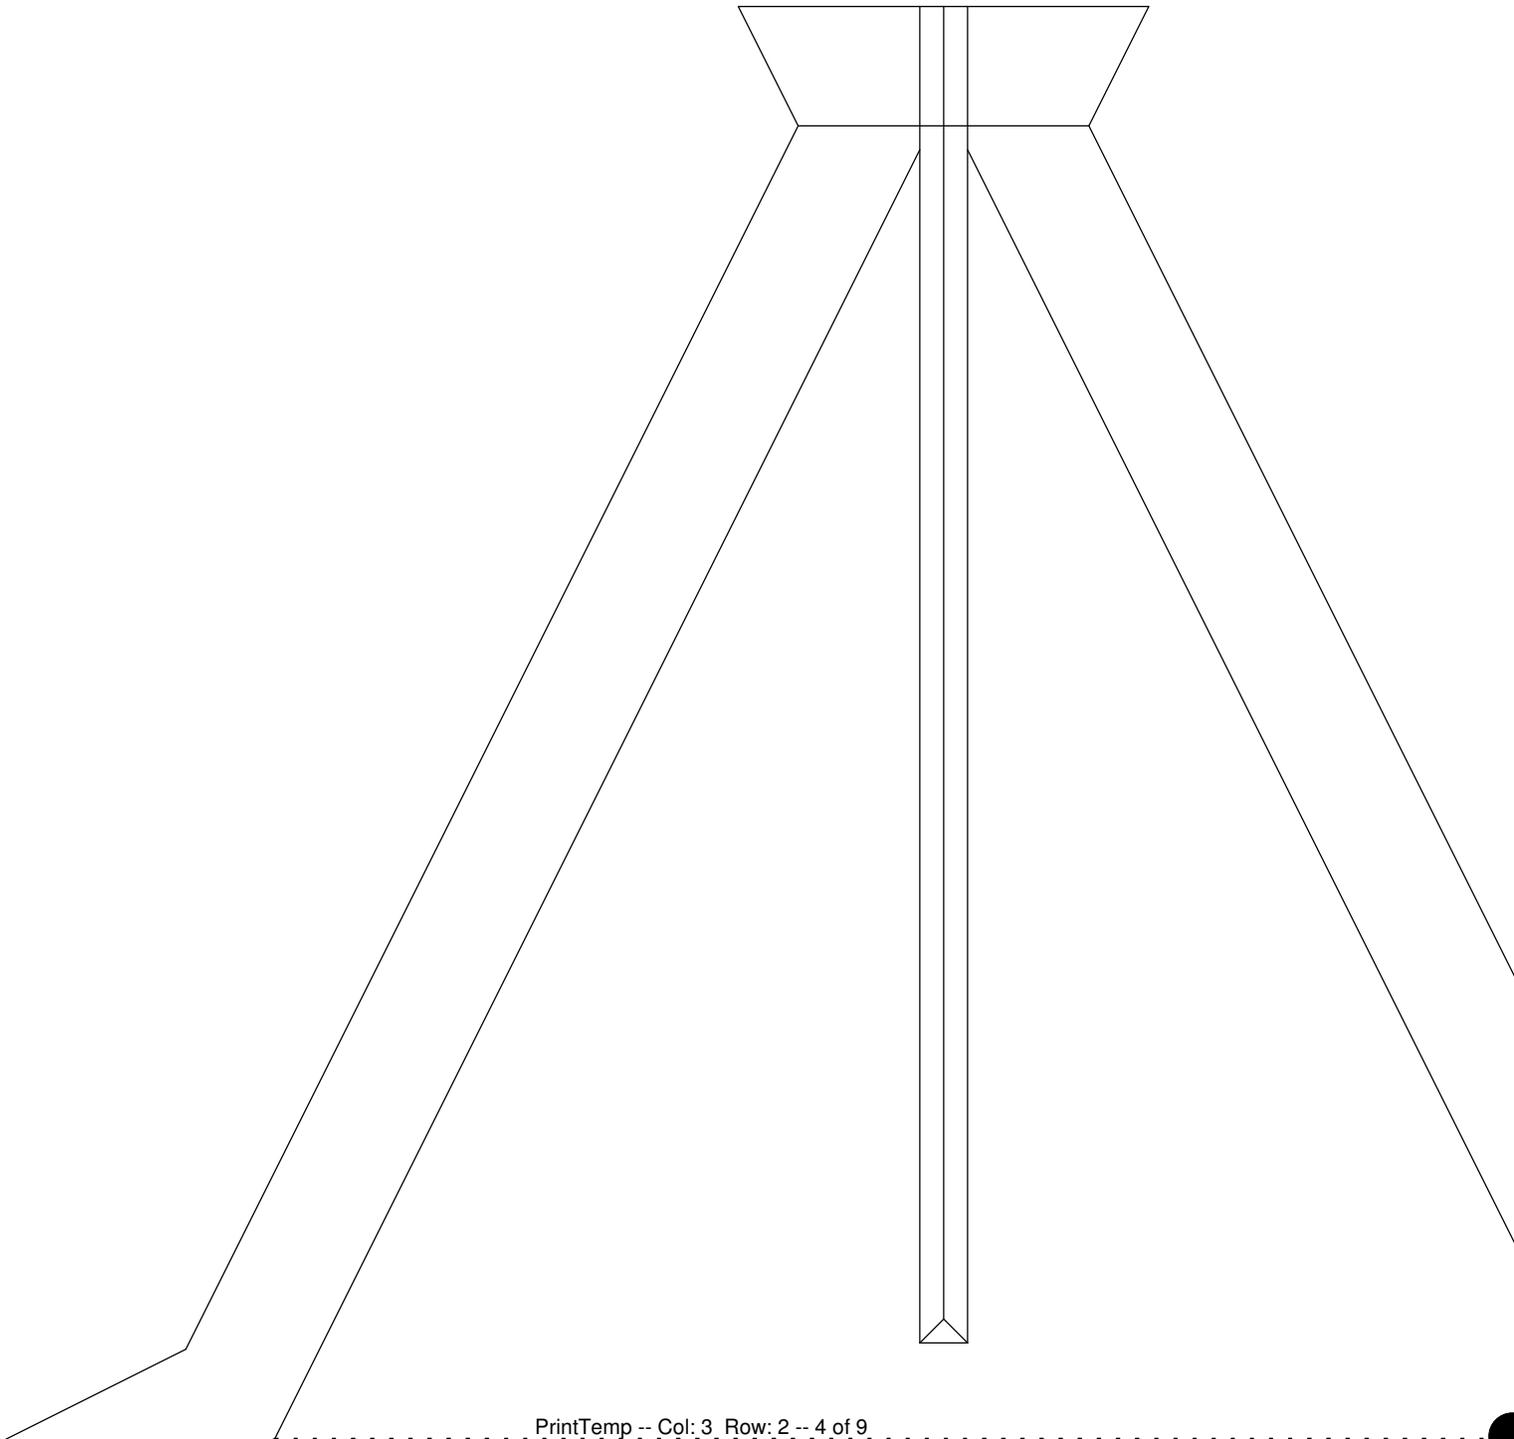

- 5a** If you are using a piece of stiffening on the bottom, center it up on the wrong side of the lining; once again, your trusty glue stick will come in handy here!

Wrong sides together, baste the lining & fabric together around all the edges. If you wish, finish the raw edges with a zig-zag stitch, an overlocker or bias binding.

- 6b** pull the wrist strap out through the opening at the top of the pyramid...and you're as done as you can be!
